DETAILED ACTION

Allowable Subject Matter

Claims 1-11 and 15-19 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art either taken singularly or in combination fails to disclose the invention as claimed. The references listed in the PCT, either in singular or in combination do not disclose the combination of $Ac/At = 50-70\%$ and $P/L = 350$ to 450% . The PCT suggested that D2 references disclose P/L approximately 380. However, this ratio is not found in the references. Furthermore, the D1 reference discloses a plurality of tube samples and one of them disclose the AC/At equal to 50. However, its corresponding P/L ratio is much lower than the claimed ratio. At last, one of ordinary skill in the art would not find it obvious to just change the P/L .

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion
